Another Printer Discusses the Palmer Method in the G. P. O.

THINKS NO UNION MAN OBJECTS

The Plan Has Been to Give Work, if Only a Little, to as Many as Possible-Will Benedict Be Confirmed-Efforts to Hasten Action by the Senate Committee.

"I am astonished that union printers should be kicking because several bundred other union printers have not been discharged from the Government Printing Office," said a first division compositor to a Times reporter last night, "Practically that is what a 'savage looking Democrat' was doing in your paper yesterday morning. The Democrat referred to is only deluded with the idea that the Senate Printing Committee will become frightened and bring in Mr. Benedict's name before they get ready.

"Savage-looking Democrat" and his friend, the "stranger to the price of a shave," should have some regard for truth. One of them says he can only earn \$9.60 a week. Now let us look into that statement. He is evidently a time-hand, for he says he receives \$3.20 a day. The employes out there have what is called a "turnin" every two weeks. That is, their accounts are closed up fortnightly. Well, I am a \$3.20 man myself, and I work only a few alleys away from "S. L. D.," who by the way has worked there about twenty years under Republican administrations, and I know that previous to the "turn-in" which closed today we have never been furloughed more than two days in a "turn-in," but in this "turn-in" we have been furloughed just three days. The pay for a full "turn-in" is \$38,40; \$9.60 from that leaves \$28.80. Half of that is \$14.40. Now, what de you think of "S. L. D.'s" truthfulness? And mind you, as I have

D.'s' truthfulness? And mind you, as I have said, this is the first "turn-in" which we have ever lost three days.

"The 'stranger to the price of a shave' can't meet his legitimate expenses on \$14.40 a week, which is the lowest amount that he has ever received in the G. P. O. unless he lost time voluntarily! My God, how many hundred thousand men in this land would consider that a princely income! There is liable to be an outburst of disapproval unless something is done. Well, who cares? It will something is done. Well, who cares? It was be a speciacle for gods and men to see seemal hundred union men 'outbursting' because the Public Printer does not discharge sever hundred of their fellowmen so, that the 'ou-bursters' can get in full time. I would ac-like to know the union man who would con-out over his own name in the press and a

vocate a thing of that sort.

"A mass-meeting will be called to denounce the parties responsible for the present situation. That is another bluff to frighten Sen ators. Permit me to suggest that the meeting be postponed until the columns of unem ployed that are pointing toward Washington arrive. Invite Generals Coxey, Kelly, Frey and the other leaders to your meeting and tell them that you are "outbursting" with indignation because you can only work four and a half and five days a week, and you want the or four hundred washers of your want three or four hundred members of you union thrown out on the street so that you can get in full time. Tell the truth

can get in full time. Tell the truth
"Public Printer Palmer has done the commendable thing in a time of almost universal
distress. He has given employment to the
largest possible number of men. And no
union man dare openly condemn him for employing so many printers that the average
number of hours of employment has to be
sealed down. The men that he might have
thrown out would not be able to find employment anywhere. The machines and the hard
times have thrown thousands of printers out
of work. Hundreds of them are walking the
sirests of every great eity, and they cannot get streets of every great city, and they cannot get a day's work in a month. How they would rejoice to be permitted to carn \$14.40 a week. And if Coxey's and Kelly's and Frye's men could carn one-half that amount they would not be tramping to Washington. To the Dem-ceratic particles in the G. P. O. ocratic patriots in the G. P. O. who are so anxious to increase the distress among work-ingmen, I would say: Try to be charitable; re-member that all the nation is suffering; want is everywhere and there is no silver lining to the clouds that lower upon us; your lot now is infinitely letter than your Republican both. the clouds that lower upon us: your lot now is infinitely better than your Republican broth-ers will be when Benedict comes in and puts them out in the street, and our time in the G. P. O. will be brief enough without you 'out-bursting' because our going is not accele-rated." And the first division compositor walked

excitedly away. Where America Would Be.
To the Editor of THE TIMES:

Your correspondent, A. R. B., asks thorough the columns of THE TIMES where will America be should the seven bimetallic European na-tions, Mexico, Bolivia, and other South American republics, agree upon a ratio of 25 of silver to I of gold, the moral effect upon Great and Greater Britain and the United States of Amer-

Greate Ritain and the United States of America would be disastrous in the extreme? Why should England stand aloof from the proposed international monetary conference, and why for the purposes of diplomacy should England be represented by the Indian delegates who are now in Europe on the silver question? Surely this is not a graceful act on the part of England toward the people of the United States of America, and it is an Englishman who says so, because it prevents the government of the United States from taking any part in the proposed monetary conference about to be called by Germany.

The quession is certainly difficult and delicate and surrounded with peculiar diplomatic relations, but surely some suggestion can be made either by your House of Representatives or the Senate that will get over the difficulty, and instead of the proposed monetary conference being held in a monometalic country that produces no silver, let it be held at Washington, the capital of the country that produces the largest amount of silver in the world. This, after the flasce of the monetary conference held at Brussels, would only be a graceful act to the people of the United States of America Where is the man who is equal to so great an occasion? H. Y. K.

The Value of Self-Control. Try to form a habit of self-control by keeping a steady and continuous watch on the temper; believe that those around do not mean to irritate. The state of mind in which a perpetual expectancy of offense is main-tained is neither dignified nor conducive to respect. The fretful porcupine is not a pleas-ant companion. Irritability is not a proof of strength, nor in any sense to be excused on the ground of a sensitive temperament.

ACTIVITY IN INDUSTRIALS.

Market Was Unsettled in Character, with

Downward Tendency in Prices. New York, April 18.—The share specula tion to-day was unsettled in character. During the morning the market was strong in of Men's Suits at all prices tone, particularly for the industrials, in which the chief activity was displayed, the railway list being rather neglected in the early dealings. Up to about 1.15 o'clock prices as a FIFTEEN DOLLAR | rule moved upward, the advance at that time grade. Long Cut Sacks and ranging to 1% per cent, in the active list,

rule moved upward, the advance at that time ranging to 1½ per cent. in the active list, with Lead, the purchasing movement in the stock, being as usual induced by reports favorable to the company as to the decision in the quo warranto proceedings. Distilling was also strong in anticipated favorable annual statement at to-day's stockholders' meeting.

General Electric, which had been advanced 1½ by the buil pool that was formed some time ago, began to show signs of weakness about the middle of the afternoon, and was singled out for attack by the bears. The selling movement in these shares was quickly communicated to the general market, and with the exception of some unconsequential railies the tendency during the rest of the day was downward. The lowest figures were touched just before the close, at which time the decline from the highest point ranged from ½ to 2 per cent., the latter General Electric, while Chicago Gas had reached 1½; American Tobacco, 1½; Eubber, 2; do, preferred, 2½, and Rock Island, 1¼.

In the final sales some few stocks recovered a small fraction, but the tone of speculation at the close was decidedly heavy. Compared with yesterday's final sales the last prices made for the active list show but trifling changes, and in the case of Sugar, Chicago Gas, St. Paul, Northwest, Louisville and Nashville, Western Union, and New England are exactly the same. Rock Island was weakest of the grangers, having been subjected to considerable hammering by the bears on a rumored decrease in earnings; the net loss, however, was only ¾ per cent. Burlington and Quincy gains ½.

Fears of a Trunk Line war were reflected in a selling movement in New York Central, which declined 1 per cent, on the day. Delaware and Hudson lost 1 per cent, on sales of stock bought on the belief that the shares would become valuable in a close contest for control at the coming election.

But the majority of directors having already, it is said, sufficient proxies to carry the election, stock is not in such demand as was expected, an

but only to a small extent in either case, and the market was mostly controlled by local professionals.

The bond market was firmer during the

morning and early afternoon, but became heavy during the last hour, in sympathy with the share speculation, and closed weak.

FIGHTING FOR THE PENNANT

Baseball League Championship Season Will Open This Afternoon.

WHERE THE CLUBS WILL PLAY

Washington Will Have the Strong Philadelphia Team to Tackle in the Opening Series-The Players Spent Yesterday in Perfecting Themselves in Signals.

GAMES SCHEDULED TO-DAY. PHILADELPHIA AT WASHINGTON. NEW YORK AT BALTIMORE, BOSTON AT BROOKLYN. PITTSBURG AT ST. LOUIS. CLEVELAND AT LOUISVILLE. CHICAGO AT CINCINNATI.

At National Park this afternoon the championship season of 1894 will be opened with a game between Washington and Philadelphia. This will be the first time since Washington has been in the League that the Quakers have been the opening attraction, and a big crowd is sure to be present. The local club has had several weeks of practice, and Manager Schmelz is confident his men will make a good showing. The Phillies are a clever lot of players, but they will have to play hard to win a ball from the Senators. In order to properly open the season a grand carriage parade of both teams will take place before the game, and a band concert will enliven the spectators before Umpire Tim Hurst calls "play" at 4.30 o'clock.

All of yesterday Manager Schmelz had his men at work at the ball park practicing signals and getting in condition for to-day's signate and getting in condition for to-day's
contest. There was no game, because the
manager thought it better to work the players
in secret and get them perfected in team play,
which is generally admitted to be the most
important feature in the game.

Manager Schmeiz has limily selected his
team, and the men of both clubs will in all
probability line up as follows:

	WASHINGTON.		PHILADELPHIA
H			Weyhin
			Boyl
1	Joyce	Second	
	Hassamaer	Short	AISe
1	Abbey		
			Delchant Thompso
			game, and the

will insure no favoritism, as Timothy is noted as a fair and square man. The average un-pire usually leans to the home club, but this is not one of Hurst's weaknesses. Some years ago Hurst was a puglist and later became an unpire. Then he was engaged as manager of the Minneapolis Western Association club and efterwards blossomed out as a League

major.

There will be quite a party of Phindelphians down to attend the game, and the attendance will be accordingly swelled. A number of invitations have been extended to leading and political leaders, and the management anticipate a big crowd. There has
been some little betting on the game with the
colds slightly in (ayay of the Universe. There odds slightly in favor of the Quinkers. Those who have taken the local end believe they have the best of it because of the more practice by the home team. It is admitted the Phillies are a strong team, but their tack of practice is the basis of the hopes of the local club's admirers.

printice is the basis of the hopes of the local cluth's admirers.

The decision of Manager Schmelz to play Hassamaer at short and Seibach in right has materally caused some unfavorable comment from those who admire Sullivan and Radford. The manager has taken this course simply because he believes the team will be stronger, and if he finds such not to be the case there will be closely watched, especially his batting against League pitchers. It is almost a sure thing that Seibach will be found inferior to Radford as far as covering the right garden is concerned, although he may prove all right at the bat. It is generally admitted that Radford can play the local right field better than any man in the business.

The patrons of the game who have not seen the practice exhibitions will be introduced to

The patrons of the game who have not seen the practice exhibitions will be introduced to a number of new faces on the local team and also a different style of coaching. Ward, Joyce, and others do not hestiate to exercise their vocal organs in coaching base runners and their main forte is never giving up, no matter how far the opposing club is ahead, As far as the local battery is concerned Esperhas shown increased effectiveness over last season, while McGuire is throwing better than ever to bases. This has always been Jim's great fault, and now that he has located the bases he may be depended on to do good

The umpires who will officiate in the different cities to-day are: Hurst at Washington, Lynch at Baltimore, O'Rourke at Brooklyn, McQuaid at St Louis, Swartwood at Cincinnati, and Emsile at Louisville.
